

SOFTWARE UPDATE

GET THE MOST OUT OF YOUR DROID RAZR MAXX BY MOTOROLA.

Verizon Wireless is pleased to announce a new software update, 6.12.181.XT912.Verizon.en.US., for your Droid RAZR Maxx by Motorola.

Verizon Wireless and Motorola encourage you to download this update.

Device Features:

- + Improved device stability.
- + Optimized device performance to extend battery life.
- + Added easy access to preloaded VZW bookmarks through quick key access.
- + Corrected loud call end and connect tones over Bluetooth.®
- + Enhanced device security preventing unauthorized access of telephony database by third parties.
- + Device is now updated with IPv6.
 - As new Internet addresses are introduced, you will be able to continue to browse and view web pages with this latest Internet enhancement.

Network Connectivity:

- + 4G coverage indicator accurately displays data connectivity.
- + Improved Wi-Fi hotspot connectivity when utilizing WPS security.

Email, Messaging & Data:

- + Improved text message delivery.

Applications & Widgets:

- + Improved Visual Voice Mail performance with data disabled and visual voicemail notification delivery.
- + Enhanced security in Verizon Apps.

MotoCast™ Updates:

- + Included a new MotoCast widget to enable easier access and discoverability of MotoCast services.
- + Modified the storage settings screen to make it easier to understand total storage versus available storage.
- + Implemented a number of MotoCast performance improvements.
