

SPECTRUM BY LG

# GET THE MOST OUT OF YOUR SPECTRUM BY LG.

Verizon Wireless is pleased to announce a new software update, VS920V6, for your Spectrum™ by LG. This update provides several improvements for your device, as well as upgrading to the Android 2.3.6 (Gingerbread) Operating System (OS), which provides enhanced security and an updated calendar.

**Verizon Wireless and LG encourage you to download this update.**

## Device Features

- + EAS password follows security policy, requiring an 8-digit password minimum.
- + Application launch will not cause force close when the device is scanning for available Wi-Fi networks.
- + Improved outline for multiple calendar view.
- + Calendar reminders send notification at accurate time.
- + Successfully sync Optimum Online accounts using POP3.
- + Pinch zoom in Camera Preview mode to select zoom level.

## Web Browsing & Email

- + Sync and Connect email maximum count is 500 regardless of server settings.
- + Browser launches immediately upon selection.
- + Added 'Select Search Engine' option in browser settings.
- + Google Search is now set as default search for a better user experience.

## Applications & Widgets

- + Google GMS (Google Mobile Services) is upgraded to Gingerbread R9.
  - Updated Google Play (v3.3.12) with enhanced user experiences.
  - Updated Gmail (v2.3.5.2) with a series of security fixes.
  - Talk2 (v1.3) includes updated video chat capabilities.
  - Updated YouTube (v2.3.4) includes enhanced editing functionalities.
- + Visual Voice Mail connection has been updated for a better user experience when syncing email.
- + Updated Apps:
  - NFL v4.0
  - VZ Navigator (v7.5.1.54)
  - Amazon Kindle (v3.3.2.3)
  - SmartShare (R2.0)
